

Carer thrive

A programme of learning opportunities to support you in your caring role

caringtogether.org

Are you an adult carer? Would you like to feel more confident in your caring role?

Then our carer learning opportunities are for you. We have developed a comprehensive programme of learning opportunities, on a wide range of topics that are designed to give you information and practical skills to help in your caring role.

How the learning is delivered

Sessions will be a mixture of in-person, face-to-face and online.

There are a range of session lengths from short, bite-sized topics to longer part-day sessions, so there should be something to suit all.

What is on offer?

Developed in partnership with carers, we aim to cover all of those "I wish I had known about that sooner" areas and have a breadth of topics including:

Taking care of yourself

First aid

Legal and finance

Carers' rights

Taking care of your back

Understanding health and social care

Moving and assisting someone

What support is available locally

What if I can't see anything for me?

We want to work with carers to make sure what we are offering is as relevant and useful as possible. If you do not see anything for you, or if you have suggestions for other topics that you would like covered, we would love to hear from you, as we are keen to continually expand our programme.

Fact sheets

If the learning opportunities aren't for you but you would like more information about topics relevant to carers, we have a range of fact sheets available including carers' rights and emergency planning.

Contact our helpline team on 0345 241 0954 to request copies.

Thank you for today's session, it was very educational, knowing what is available will enable us to ask for the right support if needed.
